

Where do I vote?

You have a number of options as to where to vote but your first question is probably, where is the precinct that I would go to if I wanted to vote on Election Day.

The Secretary of State has a web site set up for voters to find where they vote called “Voter View”. This web site looks for your address in our state wide data base of streets and tries to find your address. When using this, enter your address as you would address an envelope. For instance, for the County Courthouse, enter 211 9th St S and the city of Fargo and the Zip Code of 58103. If you cannot find your address using the Voter View we also have district and precinct maps.

Polls open at 7 AM on Election Day and close at 8 PM – voters in line at 8 PM will be allowed to vote.
